Information on new CD90.7.7 Selective DHR Validation Report:

With the help from some SDLAs, AAMVA and FMCSA, we have generated another new CDLIS report for the SDLAs. This new report is another tool for SDLAs to find possible vulnerabilities in their CDL processes and ensure that FMCSRs are being followed.

Attached is the new CD90.7.7 Selective DHR Validation Report. Below are potential questions you may have about this new report. Please take a moment to read through them.

- CD90.7.7 Selective DHR Validation Report was created to assist SDLAs in identifying missing or incorrect data on the Driver History Records (DHR)s of a given State of Record (SOR). The report performs CDN1 – Apply Common Validations on the received Driver History Record and determines if the Driver History Record (DHR) passes the validations.
- CD90.7.7 Selective DHR Validation Report allows SDLAs to ensure that the Driver History Records (DHR)s are complete and accurate.

Feel free to forward the webinar information and report to other parties. Please let me know if you have any questions.

Thanks,

Subject: Region IV Conference - Travel Grant Funding

Hello Region IV Administrators,

On behalf of Regional President Pat Kohler, I am pleased to advise that the Region IV Board has once again allocated funding to assist DMV and state police attendees who do not have sufficient agency funds available to attend this year's Region IV conference in Seattle.

A travel grant application is attached for those interested in requesting funding. Please be sure to review the award criteria before submitting an application. The deadline for submission is March 24.

We will be meeting at the Westin Seattle from May 22-24. Keep updated on conference activities on the Events Section of the AAMVA webpage at <http://www.aamva.org/events/>.

Please let me know if you have questions or need additional information. I look forward to seeing you in Seattle!

Sheila

2017 AAMVA Region IV Conference

Travel Grant Application

Region IV DMV or law enforcement attendees who do not have access to jurisdictional funding and wish to receive financial assistance to attend the 2017 Region IV conference in Seattle should complete the grant application and return it by email to sprior@aamva.org or by fax to 480-393-8988 **no later than March 24, 2017.**

Please review the grant criteria on the following page before submitting an application. Please provide ALL requested information by filling in or checking the appropriate boxes. Utilize a separate form for additional applicants.

IF POSSIBLE, THE AGENCY IS REQUESTED TO PAY THE INDIVIDUAL'S CONFERENCE REGISTRATION FEE. Your agency covering the registration fee helps travel grant funding to support more attendees.			
Please provide any additional information that would be helpful in evaluating the grant application. This is opportunity to participate in the AAMVA events. I am new the position. We have a freeze on spending and travel so this grant is necessary for me to attend the event.			

PLEASE REVIEW NEXT PAGE PRIOR TO SUBMITTING YOUR APPLICATION

2017 Region IV Conference Travel Grant Funding Award Criteria

1. Applicant must be from a jurisdictional driver licensing, motor vehicle or law enforcement agency.
2. In order to be eligible for travel grant monies, all AAMVA dues must be paid in full.
3. Applicants must have a genuine need for travel assistance, e.g., full or partial jurisdictional funding is not available.
4. Applicants are requested to cover the cost of the conference registration fee if possible.
5. Priority consideration / approval will be given to those agencies that will not be able send anyone to the Regional without grant funding.
6. If submitting more than one application per jurisdiction, ideally multiple disciplines should be represented (*e.g., driver representative, vehicle representative, law enforcement representative, etc.*)
7. All of the hotel room charges for those approved for travel grant funding will be placed on the master account and billed directly to AAMVA Region IV.
8. If an individual(s) opts to drive to the conference, mileage reimbursement cannot exceed what would have been spent on airfare. Travel recipient will be advised of travel budget for those driving.
9. Appropriate jurisdictional / agency travel approvals (*e.g., Director, Secretary, etc.*) must be received by the applicant **PRIOR** to submission of the travel grant request.
10. Individuals receiving travel grant funding must attend the full conference. Early departure is not acceptable.
11. Individuals receiving travel funding must complete a post-conference report/survey.
12. Funding does not include per diem or miscellaneous travel costs. The applicant's agency is asked to cover such costs. If the agency is unable to cover miscellaneous costs, Regional reimbursement is possible.

Subject: Region IV Conference - Travel Grant Funding

Hello Region IV Administrators,

On behalf of Regional President Pat Kohler, I am pleased to advise that the Region IV Board has once again allocated funding to assist DMV and state police attendees who do not have sufficient agency funds available to attend this year's Region IV conference in Seattle.

A travel grant application is attached for those interested in requesting funding. Please be sure to review the award criteria before submitting an application. The deadline for submission is March 24.

We will be meeting at the Westin Seattle from May 22-24. Keep updated on conference activities on the Events Section of the AAMVA webpage at <http://www.aamva.org/events/>.

Please let me know if you have questions or need additional information. I look forward to seeing you in Seattle!

Jessica Ross Selected as AAMVA's New Driver License Compacts and Reciprocity Program Director

AAMVA is pleased to announce Jessica Ross has been selected as our new Driver License Compacts and Reciprocity Program Director. This is a new position that reports to the Director of Driver Programs within the Member Services & Public Affairs Division. Jessica has served over 8 years with the Kansas Department of Revenue, most recently as Driver Services Manager with the Kansas Division of Motor Vehicles. She is a member of the Law Enforcement Committee, the e-ID Working Group, and is a 2015 graduate of the [AAMVA Leadership Academy](#). Jessica begins her new role with AAMVA on March 6, 2017. Please join us in welcoming Jessica to AAMVA's team!

CDL Train the Trainer Class

The Commercial Driver License (CDL) Train-the-Trainer Class has been scheduled for Monday, May 15, 2017 through Friday, May 19, 2017 in St. Petersburg, Florida. The session is 40 hours in length and the class size is limited to twelve people. ***Nominees must have a thorough knowledge of the CDL program, current experience conducting the CDL Skills Tests; as well as experience training State Examiners or Third Party Examiners on CDL test administration. Due to class size limitations, priority will be given to nominees from jurisdictions who implemented the test system on/after July 8, 2015.***

The class is designed to be a hands-on training class for lead examiners, or trainers, who conduct examiner and refresher training in their jurisdiction as required. The training class will utilize the curriculum as published in the Certified Commercial Examiner (CCE) Instructor Manual developed by the AAMVA International Driver Licensing Examiner Certification Executive Board. There is no tuition or registration fee for this training. All travel, room and board expenses will be paid by AAMVA.

Thursday, February 9, 2017, 2:00 - 3:00 pm (ET)

This webinar provides a detailed explanation of the Mini Spec for the Medical Examiner Certificate (MEC) Verification Inquiry (NR01) transaction. The intention of this webinar is to help SDLAs learn about and understand the new transaction, which will assist SDLAs in making preparations for the changes. The primary audience for this webinar will be the jurisdictions CDL Managers/Coordinators and Technical Staff that will be responsible for developing, testing and successfully implementing the National Registry II Solution.

JURISDICTION NEWS

Removal of Address on Manitoba Vehicle Registration Cards

Manitoba Public Insurance has discontinued the printing of registered owner addresses on vehicle registration cards. In doing so, Manitoba is following the lead of other Canadian provinces that have already made this change, and aligning to practice recommended by AAMVA. This change was made to enhance the privacy and confidentiality of registered owners of Manitoba vehicles. The address of a driver will continue to be printed on driver's licenses for law enforcement identification purposes. [Read more here.](#)

(OMB). In order to zero the incremental cost, any new incremental cost needs to be offset by the elimination of existing costs associated with at least two prior regulations. OMB is tasked with providing the heads of agencies with guidance on the implementation of these directives. The executive order also provides that no regulation shall be issued by an agency if it was not included on the most recent version or update of the published Unified Regulatory Agenda unless approved in advanced by OMB.

FMCSA Delays Effective Date of Entry-Level Driver Training Rule

As expected, and in accordance with the Presidential directive of January 20, 2017 entitled, "Regulatory Freeze Pending Review," the Federal Motor Carrier Safety Administration (FMCSA) [has delayed](#) the effective date of the final rule titled, "Minimum Training Requirements for Entry-Level Commercial Vehicle Operators" until March 21, 2017. The initial effective date of February 6, 2017 is hereby delayed.

Senate Confirms Elaine Chao as U.S. DOT Secretary

The United States Senate has confirmed Elaine Chao to serve as the United States Secretary of Transportation by a vote of 93-6. Ms. Chao formerly served as the Labor Secretary and is the wife of Senate Majority Leader Mitch McConnell (R-KY). A simple majority was all that was needed. The Department of Transportation will be instrumental in furthering the initiatives of committing \$1 trillion in spending on infrastructure and will be asked to leverage the private sector to make that commitment a reality. The confirmation marked the fifth nominee of the Trump nominees to be confirmed by the Senate.

NHTSA Delays Effective Date of Minimum Sound Requirements for Hybrid and Electric Vehicles Rule

The National Highway Traffic Safety Administration [temporary delays](#) for 36 days the effective date of the rule entitled "Federal Motor Vehicle Safety Standards; Minimum Sound Requirements for Hybrid and Electric Vehicles," published in the Federal Register on December 14, 2016. The effective date of the final rule published at 81 FR 90416, December 14, 2016, is delayed until March 21, 2017. This action is in accordance with the memorandum of January 20, 2017, from the Assistant to the President and Chief of Staff, entitled "Regulatory Freeze Pending Review." The memorandum temporarily postpones the effective date of regulations that have been published in the *Federal Register* but have not taken effect to 60 days from the date of the memorandum for the purpose of reviewing questions of fact, law, and policy they raise.

GHSA: New Report Advises States on Preparing Human Drivers for Autonomous Vehicles

As autonomous vehicles (AVs) merge into our nation's traffic, the most pressing safety challenge for states will be preparing human drivers. While these vehicles have the potential for tremendous safety benefits, AVs will be sharing the road with traditional driver-operated cars for many decades, perhaps forever. And the public remains skeptical. Currently, only about one-fifth of drivers say they would buy an autonomous car as soon as one is available and fewer than one-third say they would be comfortable riding in one. This presents a myriad of safety challenges for states, which are responsible for educating the public, licensing drivers, and establishing and enforcing traffic laws. The Governors Highway Safety Association's new report, [Autonomous Vehicles Meet Human Drivers: Traffic Safety Issues for States](#), examines these issues and recommends how states can prepare for AVs and put traffic safety at the forefront of all policy decisions. Dr. James Hedlund, a former senior official with the National Highway Traffic Safety Administration (NHTSA), authored the report. [Read more here.](#)

This is a new position that reports to the Director of Driver Programs within the Member Services & Public Affairs Division. Jessica has served over 8 years with the Kansas Department of Revenue, most recently as Driver Services Manager with the Kansas Division of Motor Vehicles. She is a member of the Law Enforcement Committee, the e-ID Working Group, and is a 2015 graduate of the [AAMVA Leadership Academy](#). Jessica begins her new role with AAMVA on March 6, 2017. Please join us in welcoming Jessica to AAMVA's team!

CDL Train the Trainer Class

The Commercial Driver License (CDL) Train-the-Trainer Class has been scheduled for Monday, May 15, 2017 through Friday, May 19, 2017 in St. Petersburg, Florida. The session is 40 hours in length and the class size is limited to twelve people. ***Nominees must have a thorough knowledge of the CDL program, current experience conducting the CDL Skills Tests; as well as experience training State Examiners or Third Party Examiners on CDL test administration. Due to class size limitations, priority will be given to nominees from jurisdictions who implemented the test system on/after July 8, 2015.***

The class is designed to be a hands-on training class for lead examiners, or trainers, who conduct examiner and refresher training in their jurisdiction as required. The training class will utilize the curriculum as published in the Certified Commercial Examiner (CCE) Instructor Manual developed by the AAMVA International Driver Licensing Examiner Certification Executive Board. There is no tuition or registration fee for this training. All travel, room and board expenses will be paid by AAMVA.

Removal of Address on Manitoba Vehicle Registration Cards

Manitoba Public Insurance has discontinued the printing of registered owner addresses on vehicle registration cards. In doing so, Manitoba is following the lead of other Canadian provinces that have already made this change, and aligning to practice recommended by AAMVA. This change was made to enhance the privacy and confidentiality of registered owners of Manitoba vehicles. The address of a driver will continue to be printed on driver's licenses for law enforcement identification purposes. [Read more here.](#)

GHSA: New Report Advises States on Preparing Human Drivers for Autonomous Vehicles

As autonomous vehicles (AVs) merge into our nation's traffic, the most pressing safety challenge for states will be preparing human drivers. While these vehicles have the potential for tremendous safety benefits, AVs will be sharing the road with traditional driver-operated cars for many decades, perhaps forever. And the public remains skeptical. Currently, only about one-fifth of drivers say they would buy an autonomous car as soon as one is available and fewer than one-third say they would be comfortable riding in one. This presents a myriad of safety challenges for states, which are responsible for educating the public, licensing drivers, and establishing and enforcing traffic laws. The Governors Highway Safety Association's new report, [Autonomous Vehicles Meet Human Drivers: Traffic Safety Issues for States](#), examines these issues and recommends how states can prepare for AVs and put traffic safety at the forefront of all policy decisions. Dr. James Hedlund, a former senior official with the National Highway Traffic Safety Administration (NHTSA), authored the report. [Read more here.](#)

GHSA: New Report Advises States on Preparing Human Drivers for Autonomous Vehicles

As autonomous vehicles (AVs) merge into our nation's traffic, the most pressing safety challenge for states will be preparing human drivers. While these vehicles have the potential for tremendous safety benefits, AVs will be sharing the road with traditional driver-operated cars for many decades, perhaps forever. And the public remains skeptical. Currently, only about one-fifth of drivers say they would buy an autonomous car as soon as one is available and fewer than one-third say they would be comfortable riding in one. This presents a myriad of safety challenges for states, which are responsible for educating the public, licensing drivers, and establishing and enforcing traffic laws. The Governors Highway Safety Association's new report, [Autonomous Vehicles Meet Human Drivers: Traffic Safety Issues for States](#), examines these issues and recommends how states can prepare for AVs and put traffic safety at the forefront of all policy decisions. Dr. James Hedlund, a former senior official with the National Highway Traffic Safety Administration (NHTSA), authored the report. [Read more here.](#)

Removal of Address on Manitoba Vehicle Registration Cards

Manitoba Public Insurance has discontinued the printing of registered owner addresses on vehicle registration cards. In doing so, Manitoba is following the lead of other Canadian provinces that have already made this change, and aligning to practice recommended by AAMVA. This change was made to enhance the privacy and confidentiality of registered owners of Manitoba vehicles. The address of a driver will continue to be printed on driver's licenses for law enforcement identification purposes. [Read more here.](#)

CDL Train the Trainer Class

The Commercial Driver License (CDL) Train-the-Trainer Class has been scheduled for Monday, May 15, 2017 through Friday, May 19, 2017 in St. Petersburg, Florida. The session is 40 hours in length and the class size is limited to twelve people. ***Nominees must have a thorough knowledge of the CDL program, current experience conducting the CDL Skills Tests; as well as experience training State Examiners or Third Party Examiners on CDL test administration. Due to class size limitations, priority will be given to nominees from jurisdictions who implemented the test system on/after July 8, 2015.***

The class is designed to be a hands-on training class for lead examiners, or trainers, who conduct examiner and refresher training in their jurisdiction as required. The training class will utilize the curriculum as published in the Certified Commercial Examiner (CCE) Instructor Manual developed by the AAMVA International Driver Licensing Examiner Certification Executive Board. There is no tuition or registration fee for this training. All travel, room and board expenses will be paid by AAMVA.

Removal of Address on Manitoba Vehicle Registration Cards

Manitoba Public Insurance has discontinued the printing of registered owner addresses on vehicle registration cards. In doing so, Manitoba is following the lead of other Canadian provinces that have already made this change, and aligning to practice recommended by AAMVA. This change was made to enhance the privacy and confidentiality of registered owners of Manitoba vehicles. The address of a driver will continue to be printed on driver's licenses for law enforcement identification purposes. [Read more here.](#)

FMCSA Delays Effective Date of Entry-Level Driver Training Rule

As expected, and in accordance with the Presidential directive of January 20, 2017 entitled, "Regulatory Freeze Pending Review," the Federal Motor Carrier Safety Administration (FMCSA) [has delayed](#) the effective date of the final rule titled, "Minimum Training Requirements for Entry-Level Commercial Vehicle Operators" until March 21, 2017. The initial effective date of February 6, 2017 is hereby delayed.

Senate Confirms Elaine Chao as U.S. DOT Secretary

The United States Senate has confirmed Elaine Chao to serve as the United States Secretary of Transportation by a vote of 93-6. Ms. Chao formerly served as the Labor Secretary and is the wife of Senate Majority Leader Mitch McConnell (R-KY). A simple majority was all that was needed. The Department of Transportation will be instrumental in furthering the initiatives of committing \$1 trillion in spending on infrastructure and will be asked to leverage the private sector to make that commitment a reality. The confirmation marked the fifth nominee of the Trump nominees to be confirmed by the Senate.

NHTSA Delays Effective Date of Minimum Sound Requirements for Hybrid and Electric Vehicles Rule

The National Highway Traffic Safety Administration [temporary delays](#) for 36 days the effective date of the rule entitled "Federal Motor Vehicle Safety Standards; Minimum Sound Requirements for Hybrid and Electric Vehicles," published in the Federal Register on December 14, 2016. The effective date of the final rule published at 81 FR 90416, December 14, 2016, is delayed until March 21, 2017. This action is in accordance with the memorandum of January 20, 2017, from the Assistant to the President and Chief of Staff, entitled "Regulatory Freeze Pending Review." The memorandum temporarily postpones the effective date of regulations that have been published in the *Federal Register* but have not taken effect to 60 days from the date of the memorandum for the purpose of reviewing questions of fact, law, and policy they raise.

GHSA: New Report Advises States on Preparing Human Drivers for Autonomous Vehicles

As autonomous vehicles (AVs) merge into our nation's traffic, the most pressing safety challenge for states will be preparing human drivers. While these vehicles have the potential for tremendous safety benefits, AVs will be sharing the road with traditional driver-operated cars for many decades, perhaps forever. And the public remains skeptical. Currently, only about one-fifth of drivers say they would buy an autonomous car as soon as one is available and fewer than one-third say they would be comfortable riding in one. This presents a myriad of safety challenges for states, which are responsible for educating the public, licensing drivers, and establishing and enforcing traffic laws. The Governors Highway Safety Association's new report, [Autonomous Vehicles Meet Human Drivers: Traffic Safety Issues for States](#), examines these issues and recommends how states can prepare for AVs and put traffic safety at the forefront of all policy decisions. Dr. James Hedlund, a former senior official with the National Highway Traffic Safety Administration (NHTSA), authored the report. [Read more here.](#)

Removal of Address on Manitoba Vehicle Registration Cards

Manitoba Public Insurance has discontinued the printing of registered owner addresses on vehicle registration cards. In doing so, Manitoba is following the lead of other Canadian provinces that have already made this change, and aligning to practice recommended by AAMVA. This change was made to enhance the privacy and confidentiality of registered owners of Manitoba vehicles. The address of a driver will continue to be printed on driver's licenses for law enforcement identification purposes. [Read more here.](#)

GHSA: New Report Advises States on Preparing Human Drivers for Autonomous Vehicles

As autonomous vehicles (AVs) merge into our nation's traffic, the most pressing safety challenge for states will be preparing human drivers. While these vehicles have the potential for tremendous safety benefits, AVs will be sharing the road with traditional driver-operated cars for many decades, perhaps forever. And the public remains skeptical. Currently, only about one-fifth of drivers say they would buy an autonomous car as soon as one is available and fewer than one-third say they would be comfortable riding in one. This presents a myriad of safety challenges for states, which are responsible for educating the public, licensing drivers, and establishing and enforcing traffic laws. The Governors Highway Safety Association's new report, [Autonomous Vehicles Meet Human Drivers: Traffic Safety Issues for States](#), examines these issues and recommends how states can prepare for AVs and put traffic safety at the forefront of all policy decisions. Dr. James Hedlund, a former senior official with the National Highway Traffic Safety Administration (NHTSA), authored the report. [Read more here.](#)

GHSA: New Report Advises States on Preparing Human Drivers for Autonomous Vehicles

As autonomous vehicles (AVs) merge into our nation's traffic, the most pressing safety challenge for states will be preparing human drivers. While these vehicles have the potential for tremendous safety benefits, AVs will be sharing the road with traditional driver-operated cars for many decades, perhaps forever. And the public remains skeptical. Currently, only about one-fifth of drivers say they would buy an autonomous car as soon as one is available and fewer than one-third say they would be comfortable riding in one. This presents a myriad of safety challenges for states, which are responsible for educating the public, licensing drivers, and establishing and enforcing traffic laws. The Governors Highway Safety Association's new report, [Autonomous Vehicles Meet Human Drivers: Traffic Safety Issues for States](#), examines these issues and recommends how states can prepare for AVs and put traffic safety at the forefront of all policy decisions. Dr. James Hedlund, a former senior official with the National Highway Traffic Safety Administration (NHTSA), authored the report. [Read more here.](#)

CDL Train the Trainer Class

The Commercial Driver License (CDL) Train-the-Trainer Class has been scheduled for Monday, May 15, 2017 through Friday, May 19, 2017 in St. Petersburg, Florida. The session is 40 hours in length and the class size is limited to twelve people. ***Nominees must have a thorough knowledge of the CDL program, current experience conducting the CDL Skills Tests; as well as experience training State Examiners or Third Party Examiners on CDL test administration. Due to class size limitations, priority will be given to nominees from jurisdictions who implemented the test system on/after July 8, 2015.***

The class is designed to be a hands-on training class for lead examiners, or trainers, who conduct examiner and refresher training in their jurisdiction as required. The training class will utilize the curriculum as published in the Certified Commercial Examiner (CCE) Instructor Manual developed by the AAMVA International Driver Licensing Examiner Certification Executive Board. There is no tuition or registration fee for this training. All travel, room and board expenses will be paid by AAMVA.

Removal of Address on Manitoba Vehicle Registration Cards

Manitoba Public Insurance has discontinued the printing of registered owner addresses on vehicle registration cards. In doing so, Manitoba is following the lead of other Canadian provinces that have already made this change, and aligning to practice recommended by AAMVA. This change was made to enhance the privacy and confidentiality of registered owners of Manitoba vehicles. The address of a driver will continue to be printed on driver's licenses for law enforcement identification purposes. [Read more here.](#)

Removal of Address on Manitoba Vehicle Registration Cards

Manitoba Public Insurance has discontinued the printing of registered owner addresses on vehicle registration cards. In doing so, Manitoba is following the lead of other Canadian provinces that have already made this change, and aligning to practice recommended by AAMVA. This change was made to enhance the privacy and confidentiality of registered owners of Manitoba vehicles. The address of a driver will continue to be printed on driver's licenses for law enforcement identification purposes. [Read more here.](#)

GHSA: New Report Advises States on Preparing Human Drivers for Autonomous Vehicles

As autonomous vehicles (AVs) merge into our nation's traffic, the most pressing safety challenge for states will be preparing human drivers. While these vehicles have the potential for tremendous safety benefits, AVs will be sharing the road with traditional driver-operated cars for many decades, perhaps forever. And the public remains skeptical. Currently, only about one-fifth of drivers say they would buy an autonomous car as soon as one is available and fewer than one-third say they would be comfortable riding in one. This presents a myriad of safety challenges for states, which are responsible for educating the public, licensing drivers, and establishing and enforcing traffic laws. The Governors Highway Safety Association's new report, [Autonomous Vehicles Meet Human Drivers: Traffic Safety Issues for States](#), examines these issues and recommends how states can prepare for AVs and put traffic safety at the forefront of all policy decisions. Dr. James Hedlund, a former senior official with the National Highway Traffic Safety Administration (NHTSA), authored the report. [Read more here.](#)

FMCSA Delays Effective Date of Entry-Level Driver Training Rule

As expected, and in accordance with the Presidential directive of January 20, 2017 entitled, "Regulatory Freeze Pending Review," the Federal Motor Carrier Safety Administration (FMCSA) [has delayed](#) the effective date of the final rule titled, "Minimum Training Requirements for Entry-Level Commercial Vehicle Operators" until March 21, 2017. The initial effective date of February 6, 2017 is hereby delayed.

Senate Confirms Elaine Chao as U.S. DOT Secretary

The United States Senate has confirmed Elaine Chao to serve as the United States Secretary of Transportation by a vote of 93-6. Ms. Chao formerly served as the Labor Secretary and is the wife of Senate Majority Leader Mitch McConnell (R-KY). A simple majority was all that was needed. The Department of Transportation will be instrumental in furthering the initiatives of committing \$1 trillion in spending on infrastructure and will be asked to leverage the private sector to make that commitment a reality. The confirmation marked the fifth nominee of the Trump nominees to be confirmed by the Senate.

NHTSA Delays Effective Date of Minimum Sound Requirements for Hybrid and Electric Vehicles Rule

The National Highway Traffic Safety Administration [temporary delays](#) for 36 days the effective date of the rule entitled "Federal Motor Vehicle Safety Standards; Minimum Sound Requirements for Hybrid and Electric Vehicles," published in the Federal Register on December 14, 2016. The effective date of the final rule published at 81 FR 90416, December 14, 2016, is delayed until March 21, 2017. This action is in accordance with the memorandum of January 20, 2017, from the Assistant to the President and Chief of Staff, entitled "Regulatory Freeze Pending Review." The memorandum temporarily postpones the effective date of regulations that have been published in the *Federal Register* but have not taken effect to 60 days from the date of the memorandum for the purpose of reviewing questions of fact, law, and policy they raise.

GHSA: New Report Advises States on Preparing Human Drivers for Autonomous Vehicles

As autonomous vehicles (AVs) merge into our nation's traffic, the most pressing safety challenge for states will be preparing human drivers. While these vehicles have the potential for tremendous safety benefits, AVs will be sharing the road with traditional driver-operated cars for many decades, perhaps forever. And the public remains skeptical. Currently, only about one-fifth of drivers say they would buy an autonomous car as soon as one is available and fewer than one-third say they would be comfortable riding in one. This presents a myriad of safety challenges for states, which are responsible for educating the public, licensing drivers, and establishing and enforcing traffic laws. The Governors Highway Safety Association's new report, [Autonomous Vehicles Meet Human Drivers: Traffic Safety Issues for States](#), examines these issues and recommends how states can prepare for AVs and put traffic safety at the forefront of all policy decisions. Dr. James Hedlund, a former senior official with the National Highway Traffic Safety Administration (NHTSA), authored the report. [Read more here.](#)

Removal of Address on Manitoba Vehicle Registration Cards

Manitoba Public Insurance has discontinued the printing of registered owner addresses on vehicle registration cards. In doing so, Manitoba is following the lead of other Canadian provinces that have already made this change, and aligning to practice recommended by AAMVA. This change was made to enhance the privacy and confidentiality of registered owners of Manitoba vehicles. The address of a driver will continue to be printed on driver's licenses for law enforcement identification purposes. [Read more here.](#)

CDL Train the Trainer Class

The Commercial Driver License (CDL) Train-the-Trainer Class has been scheduled for Monday, May 15, 2017 through Friday, May 19, 2017 in St. Petersburg, Florida. The session is 40 hours in length and the class size is limited to twelve people. ***Nominees must have a thorough knowledge of the CDL program, current experience conducting the CDL Skills Tests; as well as experience training State Examiners or Third Party Examiners on CDL test administration. Due to class size limitations, priority will be given to nominees from jurisdictions who implemented the test system on/after July 8, 2015.***

The class is designed to be a hands-on training class for lead examiners, or trainers, who conduct examiner and refresher training in their jurisdiction as required. The training class will utilize the curriculum as published in the Certified Commercial Examiner (CCE) Instructor Manual developed by the AAMVA International Driver Licensing Examiner Certification Executive Board. There is no tuition or registration fee for this training. All travel, room and board expenses will be paid by AAMVA.

Removal of Address on Manitoba Vehicle Registration Cards

Manitoba Public Insurance has discontinued the printing of registered owner addresses on vehicle registration cards. In doing so, Manitoba is following the lead of other Canadian provinces that have already made this change, and aligning to practice recommended by AAMVA. This change was made to enhance the privacy and confidentiality of registered owners of Manitoba vehicles. The address of a driver will continue to be printed on driver's licenses for law enforcement identification purposes. [Read more here.](#)

Senate Confirms Elaine Chao as U.S. DOT Secretary

The United States Senate has confirmed Elaine Chao to serve as the United States Secretary of Transportation by a vote of 93-6. Ms. Chao formerly served as the Labor Secretary and is the wife of Senate Majority Leader Mitch McConnell (R-KY). A simple majority was all that was needed. The Department of Transportation will be instrumental in furthering the initiatives of committing \$1 trillion in spending on infrastructure and will be asked to leverage the private sector to make that commitment a reality. The confirmation marked the fifth nominee of the Trump nominees to be confirmed by the Senate.

NHTSA Delays Effective Date of Minimum Sound Requirements for Hybrid and Electric Vehicles Rule

The National Highway Traffic Safety Administration [temporary delays](#) for 36 days the effective date of the rule entitled "Federal Motor Vehicle Safety Standards; Minimum Sound Requirements for Hybrid and Electric Vehicles," published in the Federal Register on December 14, 2016. The effective date of the final rule published at 81 FR 90416, December 14, 2016, is delayed until March 21, 2017. This action is in accordance with the memorandum of January 20, 2017, from the Assistant to the President and Chief of Staff, entitled "Regulatory Freeze Pending Review." The memorandum temporarily postpones the effective date of regulations that have been published in the *Federal Register* but have not taken effect to 60 days from the date of the memorandum for the purpose of reviewing questions of fact, law, and policy they raise.

GHSA: New Report Advises States on Preparing Human Drivers for Autonomous Vehicles

As autonomous vehicles (AVs) merge into our nation's traffic, the most pressing safety challenge for states will be preparing human drivers. While these vehicles have the potential for tremendous safety benefits, AVs will be sharing the road with traditional driver-operated cars for many decades, perhaps forever. And the public remains skeptical. Currently, only about one-fifth of drivers say they would buy an autonomous car as soon as one is available and fewer than one-third say they would be comfortable riding in one. This presents a myriad of safety challenges for states, which are responsible for educating the public, licensing drivers, and establishing and enforcing traffic laws. The Governors Highway Safety Association's new report, [Autonomous Vehicles Meet Human Drivers: Traffic Safety Issues for States](#), examines these issues and recommends how states can prepare for AVs and put traffic safety at the forefront of all policy decisions. Dr. James Hedlund, a former senior official with the National Highway Traffic Safety Administration (NHTSA), authored the report. [Read more here.](#)

Removal of Address on Manitoba Vehicle Registration Cards

Manitoba Public Insurance has discontinued the printing of registered owner addresses on vehicle registration cards. In doing so, Manitoba is following the lead of other Canadian provinces that have already made this change, and aligning to practice recommended by AAMVA. This change was made to enhance the privacy and confidentiality of registered owners of Manitoba vehicles. The address of a driver will continue to be printed on driver's licenses for law enforcement identification purposes. [Read more here.](#)

President Trump Issues Executive Order on Regulatory Controls

President Donald Trump has issued an [executive order](#) that directs executive agencies to identify two prior regulations for elimination for every one new regulation issued. Further, this executive order directs that the cost of planned regulations be prudently managed and controlled through a budgeting process, and that the total incremental cost of all new regulations, including repealed regulations, that are finalized in fiscal year 2017 be no greater than zero unless otherwise directed by the Director of the Office of Management and Budget

Senate Confirms Elaine Chao as U.S. DOT Secretary

The United States Senate has confirmed Elaine Chao to serve as the United States Secretary of Transportation by a vote of 93-6. Ms. Chao formerly served as the Labor Secretary and is the wife of Senate Majority Leader Mitch McConnell (R-KY). A simple majority was all that was needed. The Department of Transportation will be instrumental in furthering the initiatives of committing \$1 trillion in spending on infrastructure and will be asked to leverage the private sector to make that commitment a reality. The confirmation marked the fifth nominee of the Trump nominees to be confirmed by the Senate.

NHTSA Delays Effective Date of Minimum Sound Requirements for Hybrid and Electric Vehicles Rule

The National Highway Traffic Safety Administration [temporary delays](#) for 36 days the effective date of the rule entitled "Federal Motor Vehicle Safety Standards; Minimum Sound Requirements for Hybrid and Electric Vehicles," published in the Federal Register on December 14, 2016. The effective date of the final rule published at 81 FR 90416, December 14, 2016, is delayed until March 21, 2017. This action is in accordance with the memorandum of January 20, 2017, from the Assistant to the President and Chief of Staff, entitled "Regulatory Freeze Pending Review." The memorandum temporarily postpones the effective date of regulations that have been published in the *Federal Register* but have not taken effect to 60 days from the date of the memorandum for the purpose of reviewing questions of fact, law, and policy they raise.

GHSA: New Report Advises States on Preparing Human Drivers for Autonomous Vehicles

As autonomous vehicles (AVs) merge into our nation's traffic, the most pressing safety challenge for states will be preparing human drivers. While these vehicles have the potential for tremendous safety benefits, AVs will be sharing the road with traditional driver-operated cars for many decades, perhaps forever. And the public remains skeptical. Currently, only about one-fifth of drivers say they would buy an autonomous car as soon as one is available and fewer than one-third say they would be comfortable riding in one. This presents a myriad of safety challenges for states, which are responsible for educating the public, licensing drivers, and establishing and enforcing traffic laws. The Governors Highway Safety Association's new report, [Autonomous Vehicles Meet Human Drivers: Traffic Safety Issues for States](#), examines these issues and recommends how states can prepare for AVs and put traffic safety at the forefront of all policy decisions. Dr. James Hedlund, a former senior official with the National Highway Traffic Safety Administration (NHTSA), authored the report. [Read more here.](#)

CDL Train the Trainer Class

The Commercial Driver License (CDL) Train-the-Trainer Class has been scheduled for Monday, May 15, 2017 through Friday, May 19, 2017 in St. Petersburg, Florida. The session is 40 hours in length and the class size is limited to twelve people. ***Nominees must have a thorough knowledge of the CDL program, current experience conducting the CDL Skills Tests; as well as experience training State Examiners or Third Party Examiners on CDL test administration. Due to class size limitations, priority will be given to nominees from jurisdictions who implemented the test system on/after July 8, 2015.***

The class is designed to be a hands-on training class for lead examiners, or trainers, who conduct examiner and refresher training in their jurisdiction as required. The training class will utilize the curriculum as published in the Certified Commercial Examiner (CCE) Instructor Manual developed by the AAMVA International Driver Licensing Examiner Certification Executive Board. There is no tuition or registration fee for this training. All travel, room and board expenses will be paid by AAMVA.

Good morning,

Our contractor has asked if we can provide them with call list samples. They seem to think it's something AAMVA can provide. Is it? I don't entirely understand what it is they want from us. Please let me know if I need to ask someone else – I just figured I'd start with you.

Thank you!

Comment:

Hi Mina,

We have discovered an issue with a response message that AK is sending. Virginia performed a S2S search inquiry yesterday and an SC message was sent from the SPEXS central site to Alaska. Alaska responded with the HC and H1 messages. However, the H1 message had the Message Match Sequence Id set to 01 where it should have been taken from the received SC (as 02) and populated back into the H1 message. The HC message was correct. Can we get you to take a look at this? The Message Locator from yesterday was '1702060922410001 1UNIIM'. The transaction does not complete in VA's UNI without this set correctly.

Below are screen prints of the H1 and HC messages (from the UNI Message Log) with this field highlighted that were received in VA:

Dear CDLIS Working Group,

As per our discussion today I am repurposing our monthly CDLIS PRC call to discuss NRII with the full group; this will assist with meeting our target dates.

You will need to **register for this meeting separately**, as it is a single occurrence:

Please register for CDLIS Working Group NRII Discussion on Feb 7, 2017 11:00 AM EST at:

<https://attendee.gotowebinar.com/register/5467535254450171649>

Review/discuss NRII documentation

After registering, you will receive a confirmation email containing information about joining the webinar.

Subject: RE: Alaska Bulk Load Results

Good morning,

Thank you all again for your good work in helping us go-live!

We have been crazy busy squashing internal bugs and clarifying things for our users, as I'm sure is common among states their first week. We are finally ready to start addressing the duplicate list. However, although I've seen the emails to the other states with their links, back when we did the dry run there were also records for AK to pick up for all our duplicates, including internal. I've been unable to locate an email with those file names. Could you please send these to me so I can download them?

Subject: Alaska Bulk Load Results

Greetings,

Please find below the result of the bulk load process for Alaska. We will notify you when the resulting files are copied to your output folder.

Summary Bulk Update

CDLIS records received: 58,287

CDLIS records successfully updated: 58,275

Records with errors: 12

Summary Bulk Add

Non-CDLIS records received: 663,576

Non-CDLIS records added: 663,576

Records with errors: none

Duplicate pairs (non-type 7): 3,772

Duplicate pairs (type 7): 162,029

The bulk load process identified the duplicate counts with other S2S states, which are shown in the table below. We will be letting all those states know that the files containing duplicate information associated with their states will be placed in their respective SFTP folders.

We will also let the states know that you are the point of contact for Alaska.

Category	AR	DE	IA	ID	IN	MD	ND	NE	SD	VA	WI	WY	Total
Type 7 NA	308	29	185	582	258	228	246	142	118	327	425	156	3,004
Non-Type 7 NA	57	8	36	223	78	71	67	42	68	179	94	58	981
Total Duplicates	365	37	221	805	336	299	313	184	186	506	519	214	3,985

These are the duplicate count that Alaska has within itself:

Type 7 NA: 157,036

Non-Type 7 NA: 18

Total Duplicates: 157,054

Greetings,

Idaho has provided their duplicate information. The file AK_PROD_ID_AK_DUPL_20160130 is available in Alaska's duplicate SFTP folder AK/CD34/GoLiveDuplicate.

Your state may now include your duplicate information and then let us know when the updated file is back in the SFTP folder so that we can move it to the appropriate folder and notify Idaho.

Thanks,

Subject: Request to test

Hi Mina,

We wanted to test a scenario in CERT with Alaska where AK has 2 similar pointers on the Central Site and when an Inquiry is sent, both the pointers are returned, with their respective HC's and H1's.

This is to test that the Message match sequence Id field is populated as expected for both the responses. This is something we noticed in Production where AK was always sending it as 01.

So, could you please add 2 similar pointers and send me the information so that I can send an Inquiry? Please have the Inquiry return H1's for both the pointers.

Thank you,
Siri.

Good morning,

Thank you all again for your good work in helping us go-live!

We have been crazy busy squashing internal bugs and clarifying things for our users, as I'm sure is common among states their first week. We are finally ready to start addressing the duplicate list. However, although I've seen the emails to the other states with their links, back when we did the dry run there were also records for AK to pick up for all our duplicates, including internal. I've been unable to locate an email with those file names. Could you please send these to me so I can download them?

2017 Region IV Conference Travel Grant Funding Award Criteria

1. Applicant must be from a Region IV jurisdictional driver licensing, motor vehicle or law enforcement agency.
2. In order to be eligible for travel grant monies, all AAMVA dues must be paid in full.
3. Applicants must have a genuine need for travel assistance, e.g., full or partial jurisdictional funding is not available.
4. Applicants are requested to cover the cost of the conference registration fee if possible.
5. Priority consideration / approval will be given to those agencies unable to send staff to the Regional without grant funding.
6. If submitting more than one application per jurisdiction, ideally multiple disciplines should be represented (*e.g., driver representative, vehicle representative, law enforcement representative, etc.*)
7. All of the hotel room charges for those approved for travel grant funding will be placed on the master account and billed directly to AAMVA Region IV.
8. If an individual(s) opts to drive to the conference, mileage reimbursement cannot exceed what would have been spent on airfare. Travel recipient will be advised of travel budget for those driving.
9. Appropriate jurisdictional / agency travel approvals (*e.g., Director, Secretary, etc.*) must be received by the applicant PRIOR to submission of the travel grant request.
10. Individuals receiving travel grant funding must attend the full conference. Early departure is not acceptable.
11. Individuals receiving travel funding must complete a post-conference report/survey.
12. Funding does not include per diem or miscellaneous travel costs. The applicant's agency is asked to cover such costs. If the agency is unable to cover miscellaneous costs, Regional reimbursement is possible.

Dear Marla:

It is with great pleasure that I extend an invitation to you and your staff to join us in Seattle Washington for the 2017 AAMVA Region IV conference. We are diligently working to ensure this year's conference is informative, educational, and exceptionally worthy of your time. The program will focus on relevant and timely topics of importance to both DMV and law enforcement communities. Please join us for a conference not to be missed!

We will be meeting at the Westin Seattle. Fly-in is Sunday, May 21st and conference activities start that evening with the traditional Welcome Reception in the exhibit hall. The conference goes into full swing Monday morning and wraps up on Wednesday evening with the Charity Auction and Washington State Banquet. Fly-out is on Thursday the 25th. Conference information is posted to the events section of the [AAMVA webpage](#).

We will again remember colleagues who have passed away since last year's conference in Oregon. Please provide information on those we should include in the memorial service – including their name, role in the agency, date of death, and any other information you wish to share - to Sheila Prior by May 5. If you have a picture or other information you would like to share, please send that along as well.

Another tradition we proudly continue is the silent auction. Proceeds from this year's auction will benefit the Washington State Patrol Memorial Foundation. The WSP Memorial Foundation provides financial assistance to Washington State Patrol employees who become disabled in the line of duty, to surviving spouses and children of [fallen officers](#) and employees who die in the line of duty, and for the families of employees impacted by catastrophic injury or illness. The foundation also has an education [Scholarship Program](#) for employees or dependent children. Learn more about the memorial foundation by visiting their [website](#).

Please consider donating an item for this year's charity auction. In the past 10 years, we've raised nearly \$62,000 for Region IV law enforcement charities. Help us support this year's worthy cause by not only donating an item, but by also bidding on some of the great offerings during Wednesday's Charity Auction. You are

welcome to mail your item(s) to Chris Anthony , 1125 Washington Street, SE, Olympia, WA 98507. Delivery by May 16 is appreciated. If you would prefer to bring your donation to Seattle, simply drop it off at the conference office.

I am delighted to advise that the Regional Travel Grant Program is again available to assist those who would not otherwise be able to attend due to budget constraints. A copy of the travel grant application is attached. Please complete the travel grant application for any individual(s) for whom you need travel assistance, and return the form to Sheila Prior at sprior@aamva.org no later than March 24, 2017. Funding is awarded on a first come, first served basis.

Thank you for your support of this important event! I hope to see you in beautiful downtown Seattle in May! Our hotel rate is good for three days before and three days after the conference so consider coming in early or staying late to visit some of the many great sites in the Seattle area.

Please let Sheila or me know if you have questions or need any additional information about the conference. You can reach Sheila by email at sprior@aamva.org or by phone at 480-275-4584. You can reach me by email at pkohler@dol.wa.gov or by phone at (360) 902-3603.

Sincerely,

Pat Kohler

Hi Mina,

Hope you are doing well. You most likely have a bunch of items on your plate right now – I’m sorry, but I need to add one more ☹

This is in regards to the message match sequence ID (GMSMSI) on the H1 message. Similar to the HC and H6 message, GMSMSI on the H1 should have the same value as on the HC message. We had moved a CR through the CDLIS WG to update the H6 message population rule to populate GMSMSI with the value from the SC message. A similar CR had been approved by the S2S for the H1 message.

I am forwarding the email from WI and I believe you may have received a helpdesk ticket from Rick/VA regarding the same issue.

Can you please look into this? Our QA team is available in case you would like to perform any tests.

Thank You,
Ashish

Details for Joe tomorrow:

Customer has 2 Alaska Pointers. One a commercial DL. The other an ID Card. They both have the same DL Number.

Two H1's were sent. But both H1's had a message match sequence ID of 01 and UNI doesn't count the 2nd. And also groups both H1's under the first product.

Hi Siri,

We can't do this right now, both because I'm in meetings for the next 4.5 hours and also our test environment is unavailable.

I will be looking into this as soon as I can and will let you know.

Subject: Request to test

Hi Mina,

We wanted to test a scenario in CERT with Alaska where AK has 2 similar pointers on the Central Site and when an Inquiry is sent, both the pointers are returned, with their respective HC's and H1's.

This is to test that the Message match sequence Id field is populated as expected for both the responses. This is something we noticed in Production where AK was always sending it as 01.

So, could you please add 2 similar pointers and send me the information so that I can send an Inquiry? Please have the Inquiry return H1's for both the pointers.

Thank you,
Siri.

Good morning,

Thank you all again for your good work in helping us go-live!

We have been crazy busy squashing internal bugs and clarifying things for our users, as I'm sure is common among states their first week. We are finally ready to start addressing the duplicate list. However, although I've seen the emails to the other states with their links, back when we did the dry run there were also records for AK to pick up for all our duplicates, including internal. I've been unable to locate an email with those file names. Could you please send these to me so I can download them?

Mina,

Thank you for providing us with some IP addresses information to access the S2S Web UI. The addresses you gave us are what we call “internal” addresses, meaning they only make sense within your home or corporate network. To get the “public” IP address, simply open Google and type “what is my IP”. You can do that when you are on the VPN. That will give you an address that we can work with.

Thank you and sorry for the delay in getting this done.

Best,

Hi Mina,

Hope you are doing well. You most likely have a bunch of items on your plate right now – I’m sorry, but I need to add one more ☺

This is in regards to the message match sequence ID (GMSMSI) on the H1 message. Similar to the HC and H6 message, GMSMSI on the H1 should have the same value as on the HC message. We had moved a CR through the CDLIS WG to update the H6 message population rule to populate GMSMSI with the value from the SC message. A similar CR had been approved by the S2S for the H1 message.

I am forwarding the email from WI and I believe you may have received a helpdesk ticket from Rick/VA regarding the same issue.

Can you please look into this? Our QA team is available in case you would like to perform any tests.

Thank You,
Ashish

Details for Joe tomorrow:

Customer has 2 Alaska Pointers. One a commercial DL. The other an ID Card. They both have the same DL Number.

Two H1's were sent. But both H1's had a message match sequence ID of 01 and UNI doesn't count the 2nd. And also groups both H1's under the first product.

Subject: UNI log for SPEXS entry

Hello,

I'm wondering if either of you could help me out for an issue that we're having for a driver that's moving back to WI from AK. I contacted the AK DMV to check if there was any issues, and their tech person said that they have been sending responses to our requests, and that we may have an issue with our UNI log. Would either of you be able to take a look into this? It's for a Klint Hischke- DL# [H2005029022605](#). If you need additional information, please let me know.

Thanks,

Jennifer Nash

Comment:

Hi Mina,

We have discovered an issue with a response message that AK is sending. Virginia performed a S2S search inquiry yesterday and an SC message was sent from the SPEXS central site to Alaska. Alaska responded with the HC and H1 messages. However, the H1 message had the Message Match Sequence Id set to 01 where it should have been taken from the received SC (as 02) and populated back into the H1 message. The HC message was correct. Can we get you to take a look at this? The Message Locator from yesterday was '1702060922410001 1UNIIM'. The transaction does not complete in VA's UNI without this set correctly.

Below are screen prints of the H1 and HC messages (from the UNI Message Log) with this field highlighted that were received in VA:

Subject: RE: AK - QUESTIONNAIRE

Hi Alaska,

Just checking in to see how you are doing on your re-write that will include NMVTIS. We sent you the mapping and questionnaires that we have on file for you back in October 2016 but we have not heard back from you. Please see the below email regarding the questionnaires indicating that we want you to send your answers in the new format. For the mapping we need to know if there are going to be any changes. Please let me know if you need me to send the documents again. Also you mentioned that you thought you would be ready to meet in early 2017 so please let me know where you stand.

Thanks,

Subject: AK - QUESTIONNAIRE

Hello,

Please find attached the questionnaires AK had filled out back in 2009 and 2010. I have also attached the new formats of our questionnaire that has been updated recently with today's date. Please fill out the business questionnaire first and send it to me for our review and then send the design and testing questionnaire.

We also need to finalize the mappings, which I had sent you to on September 23, 2016. Please send me the latest mapping document so that we can review and finalize it.

Hi Melissa,

I was checking back with you on my email below. If you could let me know if we can use the same account or if you will require a separate invoice, I would appreciate it. Thanks! Susan

Subject: AAMVA billing for S2S
Importance: High

Hi Deb,

Per the attached notification that was sent out to the Chief Administrators last November, effective March 1st, AAMVA will start billing your jurisdiction for S2S (State to State). The FY17 amount to be billed will be \$38,878.25 per year, billed at \$5,554.04 per month.

I am reaching out to see if this new fee can be invoiced as a separate line item on your existing CDLIS account **AKMST-AKDPS**, or if you will require this monthly fee to be billed on a different invoice. Also we want to be sure if you have any purchase orders in place today with AAMVA, that they have been revised to add this additional monthly cost. If you could please get back to me on the account or if you have any further questions, please call me at 813-231-2511. I appreciate your assistance. Thanks! Susan

Hi Susan,

Currently, our payables are done by Melissa Walter so I am CCing this to her.
To make sure we receive any payable notices, could you update your records with her name and change the contact email to doa.dmv.payables@alaska.gov? We would appreciate it.

MEMO

TO: State-to-State Participants
FROM: Anne S. Ferro, President and CEO
DATE: November 2, 2016
RE: State-to-State Governance Committee and Post-Pilot User Agreement

Thank you for participating in the State-to-State Verification Services (S2S) pilot project. In anticipation of the pilot project concluding in March 2017, AAMVA is preparing to assume responsibility for S2S operations and governance. For this reason, I am writing to ask you to take several actions.

First, to recommend a representative of your jurisdiction to serve on the S2S Governance Committee. Governance will be in the hands of this Committee and, as noted in the attached Charter, every pilot state will be represented. Maryland Administrator Chrissy Nizer has been appointed to serve as the AAMVA Board Representative to this governing body. Second, from an operations view, participating states need to sign a new Post-Pilot User Agreement prior to March 2017. A copy of the Agreement is also attached.

Further information about both actions is explained in the following Background and subsequent Action Items.

Background

The S2S verification service was developed under a grant from the US Department of Homeland Security (DHS) given to the Mississippi Department of Public Safety (MSDPS). MSDPS formed the DL/ID Verification Systems (DIVS) organization to provide input and guidance to Mississippi for the development and operation of the S2S Pilot, among other things.

- Governance of S2S is currently provided by the DIVS Executive Committee, which is composed of seven states that have joined DIVS.
- Mississippi is the designated owner of S2S.
- Mississippi holds the contractual relationship with AAMVA for the development and operation of S2S funded via the grant.

In 2012, DIVS formed the S2S Governance Working Group, composed of three DIVS Board members and three AAMVA Board members, to work on various governance issues related to the future of S2S. The primary tasks were:

- Develop a draft fee model by which participating jurisdictions would pay for the S2S service in the post-pilot period (defined as after March 1, 2017).
- Develop recommendations regarding the entity that will assume governance responsibility of S2S in the post-pilot period.

The S2S Governance Working Group completed those tasks and recommended that governance be transitioned to a new Committee of the AAMVA Board, the S2S Governance Committee, to be formed by March 1, 2017 when the S2S pilot period expires. The AAMVA Board accepted this recommendation and the fee model. Subsequent to this acceptance, AAMVA developed a Post-Pilot User Agreement.

The fee model information was distributed to all participating jurisdictions in March 2016 to provide states time for budget planning. The tables below summarize the fees due by each pilot state for FY2017 and FY2018. These annual amounts will be invoiced on a monthly basis beginning with March 2017.

FY2017

Wyoming	\$29,651	430,397	\$30,989	\$60,640

Action Items

1. Review and sign the attached Post Pilot User Agreement by the end of January 2017.
2. Recommend, by December 1, a representative from your state to the S2S Governance Committee. The S2S Governance Committee Charter notes the following in this respect:
An Eligible Representative shall be (i) the chief motor vehicle or enforcement officer of an AAMVA member jurisdiction or (ii) the administrator of the agency that oversees the jurisdiction's participation in S2S or the motor vehicle or enforcement administrator designated by such agency administrator as his or her alternate. This designation shall be in writing and provided to the Chair of the AAMVA Board of Directors and the Committee Chair before the Eligible Representative begins participation as a member of the Committee. A member of the Committee may continue to serve as a member of the Committee only so long as he/she continues to meet the requirements to be an Eligible Representative.
3. Budget for processing AAMVA S2S invoices on a monthly basis, starting with the invoice for March 2017 (which can be expected by mid-April 2017).

Please do not hesitate to contact me (aferro@aamva.org) or Philippe Guiot (pguiot@aamva.org) if you have any questions. Thank you.

Hi Mina,

We have discovered an issue with a response message that AK is sending. Virginia performed a S2S search inquiry yesterday and an SC message was sent from the SPEXS central site to Alaska. Alaska responded with the HC and H1 messages. However, the H1 message had the Message Match Sequence Id set to 01 where it should have been taken from the received SC (as 02) and populated back into the H1 message. The HC message was correct. Can we get you to take a look at this? The Message Locator from yesterday was '1702060922410001 1UNIIM'. The transaction does not complete in VA's UNI without this set correctly.

Hi Mina,

Hope you are doing well. You most likely have a bunch of items on your plate right now – I’m sorry, but I need to add one more ☺

This is in regards to the message match sequence ID (GMSMSI) on the H1 message. Similar to the HC and H6 message, GMSMSI on the H1 should have the same value as on the HC message. We had moved a CR through the CDLIS WG to

update the H6 message population rule to populate GSMMSI with the value from the SC message. A similar CR had been approved by the S2S for the H1 message.

I am forwarding the email from WI and I believe you may have received a helpdesk ticket from Rick/VA regarding the same issue.

Can you please look into this? Our QA team is available in case you would like to perform any tests.

Thank You,
Ashish

Two H1's were sent. But both H1's had a message match sequence ID of 01 and UNI doesn't count the 2nd. And also groups both H1's under the first product.

Subject: UNI log for SPEXS entry

Hello,

I'm wondering if either of you could help me out for an issue that we're having for a driver that's moving back to WI from AK. I contacted the AK DMV to check if there was any issues, and their tech person said that they have been sending responses to our requests, and that we may have an issue with our UNI log. Would either of you be able to take a look into this? It's for a Klint Hischke- DL# [H2005029022605](#). If you need additional information, please let me know.

Thanks,

The screenshot shows a software window titled "NCS Pointers - JNCS0020 - v16192.0". The menu bar includes "Pointer", "Edit", "Window", and "Help". Below the menu is a toolbar with icons for a pointer, a document, and a history list, with the text "PDPS Pointer History" to the right. The main content area is divided into sections. The "WI Driver Info" section on the left contains "MSD ID: H200-5029-0226-05" and "CID: 5672-4053-638". The "SPEXS" logo is prominently displayed in the center, with "SPEXS INQUIRY WIDE" underneath. Below this is the "Search Criteria" section, which includes fields for "Name: KLINT / BRUCE / HISCHKE", "DOB: 06-26-1955", "SSN: 16-5550", "DL State: AK", and "DL Number: 7552249". There are also fields for "AKA Name" and "AKA DOB". A red banner across the middle of the window reads "POINTER RESULTS INCOMPLETE". Below the banner, a table lists search results. The table has columns for "Name", "DOB", "SSN", "State", "DL Number", "CDLIS Ptr", and "CSOR In Process". Two identical entries are shown for "KLINT BRUCE HISCHKE" with DOB "06-26-1955", SSN "16-5550", State "AK", and DL Number "7552249". The "CDLIS Ptr" column shows "Y" for the first entry and "N" for the second, while the "CSOR In Process" column shows "N" for both. At the bottom, there is a field for "Selected Pointer Long Name (First / Middle / Last):".

Subject: UNI log for SPEXS entry

Hello,

I'm wondering if either of you could help me out for an issue that we're having for a driver that's moving back to WI from AK. I contacted the AK DMV to check if there was any issues, and their tech person said that they have been sending responses to our requests, and that we may have an issue with our UNI log. Would either of you be able to take a look into this? It's for a Klint Hischke- DL# [H2005029022605](#). If you need additional information, please let me know.

Thanks,

Jennifer Nash

Hi Oscar,

The last couple weeks I've been unable to open the report attachments. This is the error message I get:

I've tried the "Click here for additional information" and it tells me nothing. Can you forward this to whoever might be able to figure out what error code 23 is and help me out? Thanks.

Good morning,

I've added the following driver with two pointers into test. FYI, they have already closed the ticket, as VA is confirming they are working. But if you want to test, feel free to use this record.

Hi Mina,

Hope you are doing well. You most likely have a bunch of items on your plate right now – I’m sorry, but I need to add one more ☹

This is in regards to the message match sequence ID (GMSMSI) on the H1 message. Similar to the HC and H6 message, GMSMSI on the H1 should have the same value as on the HC message. We had moved a CR through the CDLIS WG to update the H6 message population rule to populate GMSMSI with the value from the SC message. A similar CR had been approved by the S2S for the H1 message.

I am forwarding the email from WI and I believe you may have received a helpdesk ticket from Rick/VA regarding the same issue.

Can you please look into this? Our QA team is available in case you would like to perform any tests.

Thank You,
Ashish

Hello Ashish,

WI is encountering another message match sequence ID issue. This time with the Alaska H1 messages. Details below.....

Subject: RE: UNI log for SPEXS entry

Details for Joe tomorrow:

Customer has 2 Alaska Pointers. One a commercial DL. The other an ID Card. They both have the same DL Number.

Two H1's were sent. But both H1's had a message match sequence ID of 01 and UNI doesn't count the 2nd. And also groups both H1's under the first product.

The screenshot shows a software window titled "NCS Pointers - JNCS0020 - v16192.0". The window has a menu bar with "Pointer", "Edit", "Window", and "Help". Below the menu bar is a toolbar with icons for a folder, a document, and a magnifying glass, followed by the text "PDPS Pointer History".

The main content area is divided into several sections:

- WI Driver Info:** A box containing "NSD ID: H200-5029-0226-05" and "CID: 5672-4053-638".
- SPEXS:** Large blue text with "SPEXS INQUIRY WIDE" below it.
- Search Criteria:** A section with input fields for "Name: KLINT / BRUCE / HISCHKE", "DOB: 06-26-", "SSN: -5550", "DL State:", "DL Number:", "AKA Name", and "AKA DOB".
- Pointer Results:** A table with the heading "POINTER RESULTS INCOMPLETE" in red. The table has columns: "Name", "DOB", "SSN", "State", "DL Number", "CDLIS Ptr", and "CSOR In Process". It contains two rows of data for "KLINT BRUCE HISCHKE".
- Selected Pointer Long Name:** A text field at the bottom with the label "Selected Pointer Long Name (First / Middle / Last):".

Subject: UNI log for SPEXS entry

Hello,

I'm wondering if either of you could help me out for an issue that we're having for a driver that's moving back to WI from AK. I contacted the AK DMV to check if there was any issues, and their tech person said that they have been sending responses to our requests, and that we may have an issue with our UNI log. Would either of you be able to take a look into this? It's for a Klint Hischke- DL# [H2005029022605](#). If you need additional information, please let me know.

Thanks,

Jennifer Nash

Hi Oscar,

The last couple weeks I've been unable to open the report attachments. This is the error message I get:

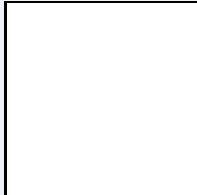

I've tried the "Click here for additional information" and it tells me nothing. Can you forward this to whoever might be able to figure out what error code 23 is and help me out? Thanks.

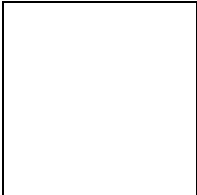

Regards,

Subject: The National Driver Register will conduct a Cleanfile on March 19, 2017

PDPS Participants:

The National Driver Register will conduct a Cleanfile on March 19, 2017

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by March 8, 2017, and plan to send your file to NDR no later than March 15, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Hi Oscar,

The last couple weeks I've been unable to open the report attachments. This is the error message I get:

I've tried the "Click here for additional information" and it tells me nothing. Can you forward this to whoever might be able to figure out what error code 23 is and help me out? Thanks.

Hi Oscar,

The last couple weeks I've been unable to open the report attachments. This is the error message I get:

I've tried the "Click here for additional information" and it tells me nothing. Can you forward this to whoever might be able to figure out what error code 23 is and help me out? Thanks.

Mina,

Thank you for providing us with some IP addresses information to access the S2S Web UI. The addresses you gave us are what we call “internal” addresses, meaning they only make sense within your home or corporate network. To get the “public” IP address, simply open Google and type “what is my IP”. You can do that when you are on the VPN. That will give you an address that we can work with.

Thank you and sorry for the delay in getting this done.

Subject: NCS is Available – Brief Interruption

NCS Participants:

NCS experienced a brief interruption of service for 2 minutes 12 seconds between 12:47:00 ET and 12:49:12 ET. The NCS system is currently available and has resumed normal operation. We are currently investigating the cause of the interruption with and will forward along more information as it becomes available.

Subject: AAMVA Training Schedule

Hi Mindy,

I know this isn't your area of AAMVA, but if you could let me know who to contact or forward my email on to someone, that would be great.

I am looking for the training schedule for AAMVA webinars. I can't get to them on the AAMVA website because our security system, or whatever it is, won't allow me to open the schedule from your website. I just need to know the schedule so I can register for classes that are coming up.

Thanks Mindy!

Sincerely,
Abbey

Alaska. Your connection to the NCS application has disconnected abnormally. This disconnection was not initiated by AAMVA and only affects your site. Please check your system logs (UNI and/or Network and Firewall) to identify what initiated this disconnection and reestablish your connectivity. Please provide AAMVA detailed information on the cause of this loss of connectivity.

AAMVA is also checking all dedicated resources. If it is determined that the cause of the problem is at any of AAMVA's dedicated resources we will let you know.

For UNI users, if you cannot determine the cause then please send the UNI IP log to UniHelpDesk@aamva.org.

Subject: Medically At Risk / Older Drivers
Importance: High

I hope this email finds you well in the new year! I have some question below I hope you can help with. If you are not the contact person for this, please let me know.

1. How does law enforcement handle an encounter with a medically at risk driver licensed in another state? What is the referral process for out of state medically at risk drivers? Does your state have a referral form, if yes, can you send a copy?

I can't answer as to how law enforcement handles drivers licensed in another State. I would recommend getting in touch with a law enforcement agency to ask those questions. I have attached our recommendation for reexamination form that Law Enforcement may use to turn in a licensed driver in our state.

2. Who can refer an unsafe driver in your state? Is this limited to law enforcement?

No, anyone can turn in someone they believe to be an unsafe driver with the attached form.

3. Does your state have an Older Driver Safety program or desire to start one?

Hi Mina,

The AAMVA QA team would like to solicit feedback from your state, in regards to your SPEXS 6.0 Testing experience. Please find attached the survey.

We would appreciate it, if you could email us back your feedback at an earliest convenience, and as always, please let us know of any questions.

Thank you,
Siri.

SPEXS 6.0 State Testing Survey

Please fill out the following survey and send back to your AAMVA POC via email.

Area of support	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
Quality					
The AAMVA Testing Point Of Contact (POC) was knowledgeable of the SPEXS System Specifications, Test Plans and other documentation referred during the Testing process.					
The AAMVA Testing POC was detail oriented while executing and reviewing test results.					
Communication					
The AAMVA Testing POC clearly communicated issues identified during testing, with pertinent references to the Specifications, and provided adequate assistance to troubleshoot/resolve the issues, as requested by the state.					
The AAMVA Testing POC answered all questions thoroughly and when needed, promptly escalated/forwarded questions to the appropriate AAMVA personnel.					
Timeliness					
The AAMVA Testing POC responded to me in a timely manner.					
Professionalism					
The AAMVA Testing POC provided courteous and professional support during testing and in coordinating our production migration.					
Overall					
My overall experience with the AAMVA Testing was positive.

Good morning,

Our contractor has asked if we can provide them with call list samples. They seem to think it's something AAMVA can provide. Is it? I don't entirely understand what it is they want from us. Please let me know if I need to ask someone else – I just figured I'd start with you.

Thank you!

Good morning,

Our contractor has asked if we can provide them with call list samples. They seem to think it's something AAMVA can provide. Is it? I don't entirely understand what it is they want from us. Please let me know if I need to ask someone else – I just figured I'd start with you.

Thank you!

Looking for Public Affairs Professionals to Serve as PACE Awards Judges

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

New Jersey Latest Jurisdiction to Implement USPVS via Web-Based Menu

On February 13, 2017, New Jersey successfully migrated U.S. Passport Verification Service (USPVS) functionality via Web-Based Menu (WBM) into production. NJ is now operational with USPVS and becomes the 25th jurisdiction participating in the program. USPVS allows the user to verify U.S. Passport document data against DHS backend systems. The service assists state DMVs in issuing more secure driver licenses and identification cards. This application is available via internet and provides the implementing jurisdiction with the information to verify U.S. Passports and U.S. Passport Cards. President Trump Signs Order to Dismantle Transnational Criminal Organizations and Prevent International Trafficking

President Trump [signed](#) the "Enforcing Federal Law with Respect to Transnational Criminal Organizations and Preventing International Trafficking" executive order on February 9, 2016. The order focuses on dismantling transnational criminal and subsidiary organizations, including transnational drug cartels and human trafficking organizations. The executive action directs federal law enforcement agencies to focus enforcement efforts on these transnational organizations and increase intelligence sharing and cooperation. As part of the order, the Secretary of State, the Attorney General, the Secretary of Homeland Security, and the Director of National Intelligence will co-chair and direct the existing interagency Threat Mitigation Working Group (TMWG), which will identify methods for Federal agencies to coordinate with State, tribal, and local governments and law enforcement agencies, foreign law enforcement partners, public-health organizations, and non-governmental organizations in order to aid in the identification, interdiction, and dismantling of transnational criminal organizations and subsidiary organizations.

President Trump Signs Order To Prevent Violence Against Law Enforcement Officers

President Trump [signed](#) the Preventing Violence Against Federal, State, Tribal, and Local Law Enforcement Officers executive order on February 9, 2016. The order affirms that it is the policy of the Executive Branch to enforce all Federal laws in order to enhance the protection and safety of Federal, State, tribal, and local law enforcement officers, develop strategies to further enhance the protection and safety of all officers, pursue appropriate legislation that will define new Federal crimes, and increase penalties for existing Federal crimes to prevent violence against law enforcement officers. The executive action directs the Attorney General to develop an implementation strategy consisting of coordination among all levels of law enforcement, review of current Federal laws, evaluation of all grant funding programs currently administered by the Department of Justice, and make recommendations on how to enhance the safety of law enforcements officers.

President Trump Signs Order To Create Task Force on Crime Reduction and Public Safety

President Trump [signed](#) the "Task Force on Crime Reduction and Public Safety" executive order on February 9, 2016. Now Available - Drowsy Driving Prevention Campaign Materials

Drowsy driving is a dangerous behavior that can result in serious injury or death. But despite the risks, drowsy driving is far too prevalent. Drowsy driving is estimated to contribute to as many as 1.2 million collisions, resulting in potentially 5,000 to 8,000 fatalities per year. NHTSA's Traffic Safety Marketing has materials available to raise awareness of the dangers of drowsy driving. LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

President Trump Signs Order to Dismantle Transnational Criminal Organizations and Prevent International Trafficking

President Trump [signed](#) the "Enforcing Federal Law with Respect to Transnational Criminal Organizations and Preventing International Trafficking" executive order on February 9, 2016. The order focuses on dismantling transnational criminal and subsidiary organizations, including transnational drug cartels and human trafficking organizations. The executive action directs federal law enforcement agencies to focus enforcement efforts on these transnational organizations and increase intelligence sharing and cooperation. As part of the order, the Secretary of State, the Attorney General, the Secretary of Homeland Security, and the Director of National Intelligence will co-chair and direct the existing interagency Threat Mitigation Working Group (TMWG), which will identify methods for Federal agencies to coordinate with State, tribal, and local governments and law enforcement agencies, foreign law enforcement partners, public-health organizations, and non-governmental organizations in order to aid in the identification, interdiction, and dismantling of transnational criminal organizations and subsidiary organizations.

President Trump Signs Order To Prevent Violence Against Law Enforcement Officers

President Trump [signed](#) the Preventing Violence Against Federal, State, Tribal, and Local Law Enforcement Officers executive order on February 9, 2016. The order affirms that it is the policy of the Executive Branch to enforce all Federal laws in order to enhance the protection and safety of Federal, State, tribal, and local law enforcement officers, develop strategies to further enhance the protection and safety of all officers, pursue appropriate legislation that will define new Federal crimes, and increase penalties for existing Federal crimes to prevent violence against law enforcement officers. The executive action directs the Attorney General to develop an implementation strategy consisting of coordination among all levels of law enforcement, review of current Federal laws, evaluation of all grant funding programs currently administered by the Department of Justice, and make recommendations on how to enhance the safety of law enforcements officers.

President Trump Signs Order To Create Task Force on Crime Reduction and Public Safety

President Trump [signed](#) the "Task Force on Crime Reduction and Public Safety" executive order on February 9, 2016. The purpose of the order is to reduce crime and restore public safety to communities across the nation. The Attorney General is directed to establish appoint or designate an individual or individuals to chair a Task Force on Crime Reduction and Public Safety. LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

President Trump Signs Order to Dismantle Transnational Criminal Organizations and Prevent International Trafficking

President Trump [signed](#) the "Enforcing Federal Law with Respect to Transnational Criminal Organizations and Preventing International Trafficking" executive order on February 9, 2016. The order focuses on dismantling transnational criminal and subsidiary organizations, including transnational drug cartels and human trafficking organizations. The executive action directs federal law enforcement agencies to focus enforcement efforts on these transnational organizations and increase intelligence sharing and cooperation. As part of the order, the Secretary of State, the Attorney General, the Secretary of Homeland Security, and the Director of National Intelligence will co-chair and direct the existing interagency Threat Mitigation Working Group (TMWG), which will identify methods for Federal agencies to coordinate with State, tribal, and local governments and law enforcement agencies, foreign law enforcement partners, public-health organizations, and non-governmental organizations in order to aid in the identification, interdiction, and dismantling of transnational criminal organizations and subsidiary organizations.

President Trump Signs Order To Prevent Violence Against Law Enforcement Officers

President Trump [signed](#) the Preventing Violence Against Federal, State, Tribal, and Local Law Enforcement Officers executive order on February 9, 2016. The order affirms that it is the policy of the Executive Branch to enforce all Federal laws in order to enhance the protection and safety of Federal, State, tribal, and local law enforcement officers, develop strategies to further enhance the protection and safety of all officers, pursue appropriate legislation that will define new Federal crimes, and increase penalties for existing Federal crimes to prevent violence against law enforcement officers. The executive action directs the Attorney General to develop an implementation strategy consisting of coordination among all levels of law enforcement, review of current Federal laws, evaluation of all grant funding programs currently administered by the Department of Justice, and make recommendations on how to enhance the safety of law enforcements officers.

President Trump Signs Order To Create Task Force on Crime Reduction and Public Safety

President Trump [signed](#) the "Task Force on Crime Reduction and Public Safety" executive order on February 9, 2016. LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

President Trump Signs Order to Dismantle Transnational Criminal Organizations and Prevent International Trafficking

President Trump [signed](#) the "Enforcing Federal Law with Respect to Transnational Criminal Organizations and Preventing International Trafficking" executive order on February 9, 2016. The order focuses on dismantling transnational criminal and subsidiary organizations, including transnational drug cartels and human trafficking organizations. The executive action directs federal law enforcement agencies to focus enforcement efforts on these transnational organizations and increase intelligence sharing and cooperation. As part of the order, the Secretary of State, the Attorney General, the Secretary of Homeland Security, and the Director of National Intelligence will co-chair and direct the existing interagency Threat Mitigation Working Group (TMWG), which will identify methods for Federal agencies to coordinate with State, tribal, and local governments and law enforcement agencies, foreign law enforcement partners, public-health organizations, and non-governmental organizations in order to aid in the identification, interdiction, and dismantling of transnational criminal organizations and subsidiary organizations.

President Trump Signs Order To Prevent Violence Against Law Enforcement Officers

President Trump [signed](#) the Preventing Violence Against Federal, State, Tribal, and Local Law Enforcement Officers executive order on February 9, 2016. The order affirms that it is the policy of the Executive Branch to enforce all Federal laws in order to enhance the protection and safety of Federal, State, tribal, and local law enforcement officers, develop strategies to further enhance the protection and safety of all officers, pursue appropriate legislation that will define new Federal crimes, and increase penalties for existing Federal crimes to prevent violence against law enforcement officers. The executive action directs the Attorney General to develop an implementation strategy consisting of coordination among all levels of law enforcement, review of current Federal laws, evaluation of all grant funding programs currently administered by the Department of Justice, and make recommendations on how to enhance the safety of law enforcements officers.

President Trump Signs Order To Create Task Force on Crime Reduction and Public Safety

President Trump [signed](#) the "Task Force on Crime Reduction and Public Safety" executive order on February 9, 2016. The purpose of the order is to reduce crime and restore public safety to communities across the nation. The Attorney General is directed to establish appoint or designate an individual or individuals to chair a Task Force on Crime Reduction and Public Safety. The Task Force shall exchange information and ideas among its members that will be useful in

LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

Now Available - Drowsy Driving Prevention Campaign Materials

Drowsy driving is a dangerous behavior that can result in serious injury or death. But despite the risks, drowsy driving is far too prevalent. Drowsy driving is estimated to contribute to as many as 1.2 million collisions, resulting in potentially 5,000 to 8,000 fatalities per year. NHTSA's Traffic Safety Marketing has materials available to raise awareness of the dangers of drowsy driving. LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

New Jersey Latest Jurisdiction to Implement USPVS via Web-Based Menu

On February 13, 2017, New Jersey successfully migrated U.S. Passport Verification Service (USPVS) functionality via Web-Based Menu (WBM) into production. NJ is now operational with USPVS and becomes the 25th jurisdiction participating in the program. USPVS allows the user to verify U.S. Passport document data against DHS backend systems. The service assists state DMVs in issuing more secure driver licenses and identification cards. This application is available via internet and provides the implementing jurisdiction with the information to verify U.S. Passports and U.S. Passport Cards. For information on USPVS, contact AAMVA's Nalini Rangaraju (nrangaraju@aamva.org / 703.908.5784). Congratulations to NJ!

New Jersey Latest Jurisdiction to Implement USPVS via Web-Based Menu

On February 13, 2017, New Jersey successfully migrated U.S. Passport Verification Service (USPVS) functionality via Web-Based Menu (WBM) into production. NJ is now operational with USPVS and becomes the 25th jurisdiction participating in the program. USPVS allows the user to verify U.S. Passport document data against DHS backend systems. The service assists state DMVs in issuing more secure driver licenses and identification cards. This application is available via internet and provides the implementing jurisdiction with the information to verify U.S. Passports and U.S. Passport Cards. For information on USPVS, contact AAMVA's Nalini Rangaraju (nrangaraju@aamva.org / 703.908.5784). Congratulations to NJ!

President Trump Signs Order to Dismantle Transnational Criminal Organizations and Prevent International Trafficking

President Trump [signed](#) the "Enforcing Federal Law with Respect to Transnational Criminal Organizations and Preventing International Trafficking" executive order on February 9, 2016. The order focuses on dismantling transnational criminal and subsidiary organizations, including transnational drug cartels and human trafficking organizations. The executive action directs federal law enforcement agencies to focus enforcement efforts on these transnational organizations and increase intelligence sharing and cooperation. As part of the order, the Secretary of State, the Attorney General, the Secretary of Homeland Security, and the Director of National Intelligence will co-chair and direct the existing interagency Threat Mitigation Working Group (TMWG), which will identify methods for Federal agencies to coordinate with State, tribal, and local governments and law enforcement agencies, foreign law enforcement partners, public-health organizations, and non-governmental organizations in order to aid in the identification, interdiction, and dismantling of transnational criminal organizations and subsidiary organizations.

President Trump Signs Order To Prevent Violence Against Law Enforcement Officers

President Trump [signed](#) the Preventing Violence Against Federal, State, Tribal, and Local Law Enforcement Officers executive order on February 9, 2016. The order affirms that it is the policy of the Executive Branch to enforce all Federal laws in order to enhance the protection and safety of Federal, State, tribal, and local law enforcement officers, develop strategies to further enhance the protection and safety of all officers, pursue appropriate legislation that will define new Federal crimes, and increase penalties for existing Federal crimes to prevent violence against law enforcement officers. The executive action directs the Attorney General to develop an implementation strategy consisting of coordination among all levels of law enforcement, review of current Federal laws, evaluation of all grant funding programs currently administered by the Department of Justice, and make recommendations on how to enhance the safety of law enforcements officers.

President Trump Signs Order To Create Task Force on Crime Reduction and Public Safety

President Trump [signed](#) the "Task Force on Crime Reduction and Public Safety" executive order on February 9, 2016. Now Available - Drowsy Driving Prevention Campaign Materials

Drowsy driving is a dangerous behavior that can result in serious injury or death. But despite the risks, drowsy driving is far too prevalent. Drowsy driving is estimated to contribute to as many as 1.2 million collisions, resulting in potentially 5,000 to 8,000 fatalities per year. NHTSA's Traffic Safety Marketing has materials available to raise awareness of the dangers of drowsy driving. LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

Looking for Public Affairs Professionals to Serve as PACE Awards Judges

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

New Jersey Latest Jurisdiction to Implement USPVS via Web-Based Menu

On February 13, 2017, New Jersey successfully migrated U.S. Passport Verification Service (USPVS) functionality via Web-Based Menu (WBM) into production. NJ is now operational with USPVS and becomes the 25th jurisdiction participating in the program. USPVS allows the user to verify U.S. Passport document data against DHS backend systems. The service assists state DMVs in issuing more secure driver licenses and identification cards. This application is available via internet and provides the implementing jurisdiction with the information to verify U.S. Passports and U.S. Passport Cards. For information on USPVS, contact AAMVA's Nalini Rangaraju (nrangaraju@aamva.org / 703.908.5784). Congratulations to NJ!

Now Available - Drowsy Driving Prevention Campaign Materials

Drowsy driving is a dangerous behavior that can result in serious injury or death. But despite the risks, drowsy driving is far too prevalent. Drowsy driving is estimated to contribute to as many as 1.2 million collisions, resulting in potentially 5,000 to 8,000 fatalities per year. NHTSA's Traffic Safety Marketing has materials available to raise awareness of the dangers of drowsy driving. LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

Looking for Public Affairs Professionals to Serve as PACE Awards Judges

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

New Jersey Latest Jurisdiction to Implement USPVS via Web-Based Menu

On February 13, 2017, New Jersey successfully migrated U.S. Passport Verification Service (USPVS) functionality via Web-Based Menu (WBM) into production. NJ is now operational with USPVS and becomes the 25th jurisdiction participating in the program. USPVS allows the user to verify U.S. Passport document data against DHS backend systems. The service assists state DMVs in issuing more secure driver licenses and identification cards. This application is available via internet and provides the implementing jurisdiction with the information to verify U.S. Passports and U.S. Passport Cards. For information on USPVS, contact AAMVA's Nalini Rangaraju (nrangaraju@aamva.org / 703.908.5784). Congratulations to NJ!

Now Available - Drowsy Driving Prevention Campaign Materials

Drowsy driving is a dangerous behavior that can result in serious injury or death. But despite the risks, drowsy driving is far too prevalent. Drowsy driving is estimated to contribute to as many as 1.2 million collisions, resulting in potentially 5,000 to 8,000 fatalities per year. NHTSA's Traffic Safety Marketing has materials available to raise awareness of the dangers of drowsy driving. LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

Looking for Public Affairs Professionals to Serve as PACE Awards Judges

We want your help to select the 2017 PACE award winners! Now that submissions to the awards program is closed, it's time to select the winners. If you are a communications/PR professional and would like to serve as a judge for the public affairs and consumer education (PACE) awards, please send an email to narthur@aamva.org. We have [9 PACE awards divisions containing 26 different categories](#). Judging will take place later this month and into March. All of the awards will be judged electronically using AAMVA's Sharepoint system. If you or your agency submitted for awards, don't let that stop you. We will not assign you to any category where your jurisdiction has submitted. If you are willing to contribute your time and help us reward the outstanding work of jurisdictions across the country, let us know and we will add you to our list.

New Jersey Latest Jurisdiction to Implement USPVS via Web-Based Menu

On February 13, 2017, New Jersey successfully migrated U.S. Passport Verification Service (USPVS) functionality via Web-Based Menu (WBM) into production. NJ is now operational with USPVS and becomes the 25th jurisdiction participating in the program. USPVS allows the user to verify U.S. Passport document data against DHS backend systems. The service assists state DMVs in issuing more secure driver licenses and identification cards. This application is available via internet and provides the implementing jurisdiction with the information to verify U.S. Passports and U.S. Passport Cards. For information on USPVS, contact AAMVA's Nalini Rangaraju (nrangaraju@aamva.org / 703.908.5784). Congratulations to NJ!

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, February 14, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

President Trump Signs Order to Dismantle Transnational Criminal Organizations and Prevent International Trafficking

President Trump [signed](#) the "Enforcing Federal Law with Respect to Transnational Criminal Organizations and Preventing International Trafficking" executive order on February 9, 2016. The order focuses on dismantling transnational criminal and subsidiary organizations, including transnational drug cartels and human trafficking organizations. The executive action directs federal law enforcement agencies to focus enforcement efforts on these transnational organizations and increase intelligence sharing and cooperation. As part of the order, the Secretary of State, the Attorney General, the Secretary of Homeland Security, and the Director of National Intelligence will co-chair and direct the existing interagency Threat Mitigation Working Group (TMWG), which will identify methods for Federal agencies to coordinate with State, tribal, and local governments and law enforcement agencies, foreign law enforcement partners, public-health organizations, and non-governmental organizations in order to aid in the identification, interdiction, and dismantling of transnational criminal organizations and subsidiary organizations.

President Trump Signs Order To Prevent Violence Against Law Enforcement Officers

President Trump [signed](#) the Preventing Violence Against Federal, State, Tribal, and Local Law Enforcement Officers executive order on February 9, 2016. The order affirms that it is the policy of the Executive Branch to enforce all Federal laws in order to enhance the protection and safety of Federal, State, tribal, and local law enforcement officers, develop strategies to further enhance the protection and safety of all officers, pursue appropriate legislation that will define new Federal crimes, and increase penalties for existing Federal crimes to prevent violence against law enforcement officers. The executive action directs the Attorney General to develop an implementation strategy consisting of coordination among all levels of law enforcement, review of current Federal laws, evaluation of all grant funding programs currently administered by the Department of Justice, and make recommendations on how to enhance the safety of law enforcements officers.

Now Available - Drowsy Driving Prevention Campaign Materials

Drowsy driving is a dangerous behavior that can result in serious injury or death. But despite the risks, drowsy driving is far too prevalent. Drowsy driving is estimated to contribute to as many as 1.2 million collisions, resulting in potentially 5,000 to 8,000 fatalities per year. NHTSA's Traffic Safety Marketing has materials available to raise awareness of the dangers of drowsy driving. Click [here](#) and get your campaign materials now or visit the [Highway Safety Outreach Resources](#) page on AAMVA's website.

LPR Policy Template Released

Through a collaborative partnership among the associations represented on the Criminal Intelligence Coordinating Council (CICC), the U.S. Department of Homeland Security, the Bureau of Justice Assistance, and numerous federal, state, and local partners, we are pleased to announce the official release of the [License Plate Reader Policy Development Template for Use in Intelligence and Investigative Activities](#) (LPR Policy Template). This policy guidance resource is designed specifically for law enforcement entities and fusion centers to assist their efforts developing and implementing comprehensive privacy, civil rights, and civil liberties policies regarding the use of automated license plate readers (ALPRs or LPRs) in intelligence and investigative activities. Justice entities are turning to LPR technology to help solve crimes, recover abducted children, detect trafficking rings, and support terrorism investigations. However, when considering or implementing an LPR program, individual privacy, civil rights, and civil liberties must also be vigorously protected. Justice entities should therefore develop appropriate policies and procedures to guard against possible errors and other potential problems.

Nichole,

Some time ago, our CEO (Anne Ferro) sent an email to Alaska asking for two things related to S2S:

1. Nomination of a representative to the State-to-State Governance Committee.
2. Completion of the S2S User Agreement that will apply from 3/1/2017. (The current Agreement technically will not apply as of that date.)

I believe the email went to Marla Thompson, and that you may have received a copy.

Would you perhaps happen to know where Alaska is on either of these topics? We have not heard anything, and I am trying to track down where things may stand at this time.

Thanks,

Loffie

Attendees met to review in detail the document *NR02 MEC Transaction AMIE Specification State Version*, which was prepared by AAMVA BA team.

- In discussing the Standard Processing by the Central Site on receiving an MEC message, the Central Site's final step is to transmit an MEC Transmission Response message to the NR indicating the status code—i.e., what happened with the MEC.
- Alaska —The document should indicate that the MEC data is stored at the NR and will be available via the MEC Inquiry. This would let states know that if they chose to opt-out that they would still be able to obtain the MEC from the NR.
 - AAMVA took an action item to look at the document and write something up to address this.
- Montana- Why would the SOR send a non-matching error to the Central Site if this matching verification was already performed during an inquiry transaction?
 - AAMVA offered that the confirmation/error messages are necessary to make the transaction complete, also that if for whatever reason an MEC does pass the MEC Verification but cannot be matched to a DHR at the SDLA then the scenario would be covered.
 - FMCSA mentioned that the error message may be necessary in a broken pointer situation. If MPR data is used for the MEC Verification, there would be no way of knowing for sure that the SOR also has a DHR for the driver (broken pointer situation is where there is an MPR at the Central Site, but no record at the state). When the MEC is delivered to the state and no record can be found the state would need to respond with the error.
 - If the time between verification and the transmission is significant (say for a driver that was waited for an exemption to be granted) then it may be more likely that the state cannot locate a DHR.
- Iowa—Regarding the overview diagram, the SOR step *NR02.3 Process & Update MEC Information*—is there an allowable time period for the SOR to respond to the Central Site's HZ message, or is the SOR expected to respond immediately?
 - AAMVA responded indicating that the state would be expected to respond upon receipt of the MEC. A confirmation message simply means that the state has located a matching DHR, not that the MEC was posted (it is still to be determined by FMCSA how long the states will have to post MEC data, the assumption is 1 business day).
 - Oregon mentioned that the box should be updated to take out the 'posting' verbiage for the MEC.
 - AAMVA took an action item to update the PIC.

- VOLPE—is this transaction between the Central Site and the NR asynchronous?
 - AAMVA – Yes, the first response (from the Central Site to the NR) is immediate. It would indicate that it was passed to the SOR and indicate any validation errors. The response coming back from the SOR through the Central Site to the NR would be asynchronous, since it will depend on Central Site receiving a response from the SOR.
- It was mentioned that in several places in the document it states ‘CDL/CPL Holder/Applicant, this should say CLP/CDL Applicant/Holder.
 - AAMVA took an action item to update the document to correct this.
- VOLPE - The validation of data element “DMCEDT - MEC Expiration Date,” is shown as required, in cases where the driver is found medically unqualified these dates will not be present and cannot be required.
 - AAMVA to make this validation optional and include a data cross-check validations.
- Content validations these were discussed at the previous NR meeting. But since then, AAMVA made the following change: because the NR/Central Site transmission is always via web services, fields that can be populated from a range of pre-defined values do not need content validation. Content validation for those types of fields were therefore removed—content validation remains for those fields whose values cannot be filled with pre-defined values.
- *§NR02.2.4 Retrieved Records Validation*—if the retrieved record does not pass these validations, then the Central Site determines there is no matching CDLIS MPR for the driver, and the Central Site would proceed to the opt-out check.
 - The process diagram shows that Central Site returns an error back to the NR, which is not correct.
 - AAMVA took an action item to update the processing diagram and *§NR02.2.4 Retrieved Records Validation*.
- *§NR02.2.5 Transmission of HZ Message*
 - VOLPE - Data Element “BMPNRN - Medical Examiner Registry Number” indicates that it is alphanumeric and is limited to 15 characters. The data requirements for that field in the NR indicates numeric only, limited to 10 digits. Will this be a problem?
 - AAMVA responded indicating that this is not a problem. The Central Site-to-SOR message transmission will be in AMIE format. The Central Site conversion from XML to AMIE will account for this discrepancy. AAMVA allows for 15 characters in many fields to accommodate data parameter formatting changes, such as an increase in data field values.

- *§NR02.2.6 Transmission of Transmit MEC Response Message*
 - WG Member - For the third scenario (where the outcome is that the Central Site responds to the NR with the MEC Transmission Status Code set to “SORUnabletoReceiveMedCert”, this covers the case where a state has cannot receive MEC data yet, because it has not implemented the NRII program yet, is this accurate?
 - AAMVA responded indicating that this is correct.
 - AAMVA took an action item to split the scenarios up to show the different cases more clearly.
- FMCSA - What if the SOR has implemented all new code and their network is down, i.e., they are unable to receive the MEC information—what will the MEC Transmission Status Code be set to in this scenario?
 - AAMVA responded indicating that this would be handled with the HZ message in error.
- *§NR02.3 Process MEC Information (SOR)*
 - AAMVA to correct a typo.
- FMCSA - Does the Central Site care if the NR sends duplicate MEC records? How would duplicates be handled?
 - This scenario is covered under *§NR02.3.1 Reception of HZ Message*. Only the most recent issuance of an MEC is valid. AAMVA has left this to the State to decide how to handle duplicates. (They may run checks for duplicates, for example.) There may be cases where the MEC information is the same, but the status differs (e.g., one is voided). Each State would need to handle these situations, not the Central Site. The SPM could include information as to whether want the MEC information that the NR sends is duplicate.
- There are two duplicate MEC submission scenarios: (1) the NR sends the same MEC information more than once by mistake; and (2) the driver gets more than one medical exam within a close time period and the results are transmitted with different issue dates. This can be handled in the state procedures manual (SPM), but ultimately the State takes the required action. (States, for example, can evaluate all data elements to determine if the submission is a duplicate.)

Note: With regards to scenario (1) (doctor shopping), there currently is currently is no way to determine if a driver has seen different doctors on the same day, since the MEC card does not allow exact time entry for the medical evaluation, only the date. The SPM needs to address this. (This is an action item that the NR needs to address with FMCSA and VOLPE.)

- The CDLIS Working Group to discuss duplicate MEC records and doctor shopping and how to cover this in the SPM. Also, AAMVA to follow up on this issue with Robin Hamilton (FMCSA).
- Are there data retention requirements for old MEC records, or do new records simply supersede old ones? If I receive a duplicate, does the early one still need to be retained?
 - AAMVA indicated that per prior conversations with FMCSA, an MEC must be retained for three years from the date of issue. But there are exceptions—e.g., if the driver does not obtain a CDL after submitting an MEC, the State is not required to retain it.

Note: The Appendixes in the specification have been redesigned for ease of use—e.g., they are now broken down by blocks and message types.

Source		Must be Posted?	Useful to SDLA?
MCSA-5876 (MEC)			
Driver Last Name	Person Name Group (BPENGP)		Needed to match MEC to DHR
Driver First Name			
Radio buttons (Non-excepted Interstate) (State Variance/Intrastate)	Medical Examiner's Certification Decision (DMCEDC)		Needed to know what the driver qualifies to drive
Restrictions	Medical Certificate Restriction Code (DMCRES)	X	
MEC Expiration Date	Medical Certificate Expiration Date (DMCEDT)	X	
ME Telephone Number	Medical Examiner Telephone Number (BMPTP1)	X	
Date signed (issue date)	Medical Certificate Issue Date (DMCPED)	X	
Medical Examiner Name	Medical Examiner Name Group (BMPNGP)	X	
Medical Examiner Specialty	Medical Examiner Specialty Code (BMPSP1)		Passed in CDLIS as a part of the MEC
Medical Examiners State License Number	Medical Examiner License Number (BMPLI1)	X	
Issuing State	Medical Licensing Jurisdiction Code (BMPJ01)	X	
Registry Number	Medical Examiner Registry Number (BMPNRN)	X	
Driver License Number	Driver License Number (DDLNUM)		Needed to match MEC to DHR
Issuance State/Province	Driver License Jurisdiction		Needed to match MEC to DHR

		(DDLJUR)		
	Address of Driver	Driver Residence Address (DDVRAD)		May be helpful when determining matches for T3
	CLP/CDL Applicant/Holder	CLP or CDL Applicant/Holder (DDVCHA)		Would be nice to include in case the FMCSRs were ever expanded to include the SDLAs to receive these MEC
MCSA-5850 (Electronic submission form from ME→NR)				
	Middle Name	Person Name Group (BPENGP)		Needed to match MEC to DHR
	Suffix			
	Date of Birth	Driver Date of Birth (DDVDOB)		Needed to match MEC to DHR
Medical Variance Information (MEC updated by FMCSA)				
	Waiver/Exemption Effective Date	Driver Waiver/Exempt Effective Date (DDLWSD)	X	
	Waiver/Exemption Expiration Date	Driver Waiver/Exempt Expiration Date (DDLWED)	X	
	SPE Effective Date	Driver Skill Performance Evaluation Effective Date (DDLSSD)	X	
	SPE Expiration Date	Driver Skill Performance Evaluation Expiration Date (DDLSED)	X	
NR Data Elements (Set by NR)				
	Qualification Status	MEC Qualification Status (DMCNSC)		Needed for the solution to reuse transaction to communicate voided/rescinded MEC
	Qualification Status Date	MEC Qualification Status Date (DMCNSD)		Accompanies the status so that the state knows when the change to the MEC occurred

Subject: Register for Workshop & Law Institute

Dear AAMVA Leadership Academy Alumni,

As you continue your individual growth since attending the Academy, I want to encourage you to attend AAMVA's [Workshop & Law Institute](#) in Minneapolis, Minnesota March 15 & 16. The Workshop brings together AAMVA members from DMVs and law enforcement agencies to learn about the issues current in the industry, network with colleagues, and find solutions from industry. This 2-day event is packed with [informative sessions](#) on topics such as imported vehicles, automated and connected vehicles, tools for DMV investigators, social media, mobile DL, license plate standard, fraud, transportation network companies, and more. In addition, on the second day of the Workshop are the popular town halls for Driver, Law Enforcement, Legal, and Vehicle. These informal discussions are the ideal opportunity for like-minded colleagues to exchange ideas and information.

If we have enough Leadership Academy alumni attend, we are hoping to hold the first ever AAMVA Leadership Academy Alumni event. This would be an opportunity to meet ALA alumni from any of the three classes and to reunite with your own classmates. We hope you will join us for the [2017 Workshop & Law Institute](#). It's not too late to [register](#). The hotel is booking up quickly but we have additional hotels available.

We hope to see you there!

Sincerely yours,

Anne

Subject: AK-VA Duplicates File Processing

Greetings,

Virginia has provided their duplicate information. The file AK_PROD_VA_AK_20170130 is available in Alaska's duplicate SFTP folder AK/CD34/GoLiveDuplicate.

Your state may now include your duplicate information and then let us know when the updated file is back in the SFTP folder so that we can move it to the appropriate folder and notify Virginia.

Thanks,

Subject: Register for Workshop & Law Institute

Dear AAMVA Leadership Academy Alumni,

As you continue your individual growth since attending the Academy, I want to encourage you to attend AAMVA's [Workshop & Law Institute](#) in Minneapolis, Minnesota March 15 & 16. The Workshop brings together AAMVA members from DMVs and law enforcement agencies to learn about the issues current in the industry, network with colleagues, and find solutions from industry. This 2-day event is packed with [informative sessions](#) on topics such as imported vehicles, automated and connected vehicles, tools for DMV investigators, social media, mobile DL, license plate standard, fraud, transportation network companies, and more. In addition, on the second day of the Workshop are the popular town halls for Driver, Law Enforcement, Legal, and Vehicle. These informal discussions are the ideal opportunity for like-minded colleagues to exchange ideas and information.

If we have enough Leadership Academy alumni attend, we are hoping to hold the first ever AAMVA Leadership Academy Alumni event. This would be an opportunity to meet ALA alumni from any of the three classes and to reunite with your own classmates. We hope you will join us for the [2017 Workshop & Law Institute](#). It's not too late to [register](#). The hotel is booking up quickly but we have additional hotels available.

We hope to see you there!

Sincerely yours,

Anne

Anne,

This event sounds so relevant and informative.

I would love to attend! I would have to pay my own way because we are currently under a travel ban due to the state of Alaska's current fiscal crisis.

Are there any grants available through AAMVA for this event?

So wonderful to hear from you.

Sincerely,

Subject: AK-VA Duplicates File Processing

Greetings,

Virginia has provided their duplicate information. The file AK_PROD_VA_AK_20170130 is available in Alaska's duplicate SFTP folder AK/CD34/GoLiveDuplicate.

Your state may now include your duplicate information and then let us know when the updated file is back in the SFTP folder so that we can move it to the appropriate folder and notify Virginia.

Thanks,
